

B2K DESIGN s.r.o. ě ENGINEERING & DESIGN OFFICE

FOREWORD

The company B2K design s.r.o. is an engineering and design office. We aim at quality, expertise, reliability, speed and friendly attitude to the customer and at his satisfaction. The structures designed by us are fully functional, safe and satisfy economic and aesthetic requirements.

The company designs all types of structures based on steel, concrete and wood, as well as aluminium and glass design using all variant materials. The company undertakes special dynamic and non-linear calculations and structural analyses, provides structural expertise, Furthermore, in collaboration with fire-protection specialists the company designs load-bearing structures under fire situation.

We have close relationships with the Department of steel and wooden structures in CTU Prague, through which we maintain a constant overview of research trends and new computational methods.

Our company processes annually more than 200 projects both small and large scale (houses, apartment buildings, engineering structures, reconstructions, office buildings, special static and dynamic analyses, advanced computing structures exposed to fire, etc.). Projects are prepared by working groups headed by experienced structural designers who participated in many interesting and demanding projects.

Ing. Martin Kameř

Ing. Roman Balík

Ing. Martin Beněř, Ph.D.

FAMILY HOUSES AND RESIDENCES

House in Chomutov
